## 5. E-Tournament system

### For all categories except E-KATA INDIVIDUAL PRO:

- The Tournament will be carried out in single elimination (KO system) mode (AKA Vs AO);
- The winner of each match will proceed to the next round
- 1<sup>st</sup> Place will be awarded by the winner of the final match
- 2<sup>nd</sup> Place will be awarded to the other finalist
- 3<sup>rd</sup> Places will be awarded to the competitors who lose in the Semi Final
- 5<sup>th</sup> Places will be awarded to the competitors who lose in the 1/4 Final
- 9<sup>th</sup> Places will be awarded to the competitors who lose in the 1/8 Final
- 17<sup>th</sup> Places will be awarded to the competitors who lose in the 1/16 Final

### For E-KATA INDIVIDUAL PRO:

The elimination system used for kata is dividing the Competitors (individuals or teams) in equal number groups of eight (with the exceptions explained for less than 11 or more than 96) and for each round reduce the number of Competitors per group to 4 passing on to the next round - until only two groups of Competitors (individual or teams) remains, whereupon the Competitors with the highest score in each of the two respective groups are pitted against each other competing for 1st place (the loser taking 2nd place) and the Competitors having the second highest score in each of the two groups are pitted against the third highest score in the other group to compete for the two 3rd places (bronze finals).

- In the event that there are 3 or less Competitors a single kata is performed to determine 1st through 3rd place.
- With 4 competitors two groups of two are formed for the first round and the two winners meet to compete for 1st while the two losers are placed 3rd.

**E-KATA**

**E-KUMITE**  
**E-KIHON**

- With 5-10 competitors two groups and the three highest scoring of each group go on to medal matches. The group will then follow the normal procedure that the highest scoring Competitor for each group will compete for 1st and 2nd place - and number 2 will meet number 3 from the other group and vice versa – unless there is only 5 Competitors total – in which case the number 3 competitor in the larger group will win his/her 3rd place on bye (walk-over).
- If the number of competitors is 11-24, two groups are formed. After the first kata the 4 top competitors form two groups of four after which the second kata will determine the ranking for the 6 competitors (3 from each group) that will proceed to compete in the third round for the medals in the normal manner.
- If the number of competitors is 25-48, four groups are formed. After the first Kata the top 4 competitors from each group will pass to the second round. In the second round, 16 contestants are divided in 2 groups in 2 Tatami (8 contestants for each group) and the second Kata will be performed. After the second round the 4 best competitors for each group (eight in total) will pass to the third round. In the third round, these 8 contestants are divided into 2 groups (4 contestants for each group) and perform the third kata. After the third round the 3 best competitors of each group will pass to the medal bouts, performing the fourth Kata.

Number of Competitors	Number of groups	Number of Kata performed to win	Competitors in the second round
2	1	1	Zero (No second round)
3	1	1	Zero (No second round)
4	2	2	Medal Bout (only for gold)
5 to 10	2	2	Medal Bout
11 to 24	2	3	8 Competitors
25 to 48	4	4	16 Competitors
49 to 96	8	4	32 Competitors
97 or more	16	5	64 Competitors
