

# WAKO Full Contact mit Low Kick

Over 30 years ago, the Swiss Kickboxing Federation was one of the first Organizations who introduced Full Contact Kickboxing in Switzerland. After several Decades organizing Championships without this discipline, the Full Contact Kickboxing will be fully implemented again in the Amateur Tournaments and Swiss Championships.

**Those Fighters, who are member of the National Team of Full Contact Kickboxing, will be offered the possibility to fight on International Tournaments, as well as on European- and World Championships. They will have the possibility to compete with the best Fighters of the World.**
